

Affiliate Manager (BROK_AFFILIATES): Prompting new affiliates if they want to be paid with gift certificates

I am planning on making payouts to some of my affiliates using your Gift Certificate Manager module. However, I want to make this optional. How do I prompt the new affiliate if they want to be paid with gift certificates? I don't see a token for it.

As of version 4.944c there is a new token that can be used to prompt the new affiliate if they want to be paid with gift certificates:

`%issuecert%`

and there is a "required" token (it will return the affiliate to the page if they have not selected the option):

`%reqissuecert%`

An example, of it's use would be to add, to the "New Affiliate Sign-Up" "Main page" template field:

Get Paid with Gift Certificates: `%issuecert%`

This will display the prompt with a checkbox next to it which the new affiliate can use to make the choice.

Unique solution ID: #1458
